

## Are you really getting 100% of what is yours?

There is much more to this than just owning your own program. Too many admin companies generate additional undisclosed admin fees by calling them risk fees, transfer fees, protected cell fees, claim fees, ceding fees, etc. Our admin fees are all inclusive. If you're not receiving adequate training and development then you shouldn't be paying double for admin fees.

## Reinsurance Expertise

We handle all functions involved in managing a successful reinsurance program and manage over 171 million dollars in dealer owned trust accounts.

## 100% In-House Administration

From product design, to claims administration, everything is done under one roof.

## Long-Term Wealth Building

All of our dealer clients, from stand alone dealers to our 35 dealership groups, recognize that by using FSG as their admin company, their bottom line increases significantly, without selling an additional vehicle.

## Why FSG?

Let's be honest, the products offered to consumers are very similar throughout the automotive industry. Why pay twice as much for the same program? From 2015 through 2018, ForeSight was able to save our dealer clients \$18,490,000 in administration fees on VSCs alone. Golly gosh, those nickles and dimes really add up! Call us today for a no strings attached comparative analysis.
